Hello everyone:

We hope this mail find you well!

As you may have learned that the 2019 Novel Coronavirus (2019-nCoV) occurred in China and other countries. The Central Epidemic Command Center (CECC) of Taiwan has requested all universities to develop the University Epidemic Response Plan (UERP) and personal prevention measures when international students return to campus. The epidemic prevention measures in Taiwan are adequate and the situation is currently under control. As per the UERP, CYUT **requires students with travel history to China within 14 days after returning to Taiwan** to temporarily halt work and study on campus, and stay at home or dormitory and conduct self-health management for 14 days. Other important items in the UERP are listed as follows:

- The school starting day is deferred to **2nd of March**; please plan your arrival date appropriately to cope with the date.
- We urge you to plan your flight to Taiwan without transferring in China, Hong Kong or Macau; otherwise, you will be required to stay at home or dormitory and conduct self-health management for 14 days.
- If you encounter any difficulty to arrive at CYUT before the school starting day, please feel free to contact ICSC staffs or refer to the CYUT Studying Measures against 2019-nCoV (see the attached) posted on the CYUT homepage (https://web.cyut.edu.tw).

We wish you a safe and healthy vacation!

Sincerely,

February 4th, 2020

Office of International and Cross-Strait Cooperation

Chaoyang University of Technology
